CERTIFICATE OF STABILITY(BUILDING SAFETY CERTIFICATE)

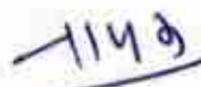

Name of the Building : **M/S- VIDYA VIKASH CONCEPT SCHOOL**
Name of the structural Engineer : **Ramgopal Naik**

I certify that I have inspected the building of the **VIDYA VIKASH CONCEPT SCHOOL BUILDING - ATARMUDA**, Tehsil & Distt. - Raigarh, the plans of which have been approved by the Nagar Nigam. I have done the Structural Audit based on the visual inspection of the accessible parts / areas of the building. Based on the visual observations, visual symptoms & manifestations shown by the structure and the data collected from site, I am of the opinion that the said structure / building is structurally sound and that its stability will not be endangered by their use as a commercial and for construction of Ground & First & Second floor. A detail Structural Audit report-covering details about structure, site observations along with photographic survey is attached with this certificate.

This certificate has been issued after, conducting detail investigation such as Non Destructive Tests, nearby soil investigation and suggestions given for repairs, strengthening, retrofitting or any other measures required that are required to make the building / structure safe, as recommended in the attached structural audit report. If structures shows any signs / symptoms / manifestations of any distresses such as, cracks, corrosion of reinforcement, spalling of concrete, deflection / sag in any structural members / walls, settlement of foundations / floors / ground, leakages etc.; after submission of this structural audit report, it shall be immediately brought to my notice. If found necessary, the structure may be inspected again and validity of this stability certificate may be modified if required.

I therefore certify that the said building structural work is safe and stable for the building constructions mentioned in this Stability format. The structural stability of the building and its proper structural performance will cease, the moment any additions or alterations, change in loads, structural changes to the structural frame are carried out without any structural engineer's advice or by accident or due to tampering by the users/ occupants for any reasons whatsoever. This certificate ceases in the event of overloading or lack of proper maintenance of structure or distress / unbalance caused by any adjoining structure or construction activity or any such act, which is detrimental to the structure. have completed with the building safety requirements in accordance with national building code rules.

This certificate has been effect from 25/12/25 for a period of 2025-2026 year in accordance with rule.

Structural engineer
